

Subrogation Recovery Services

Let us be your subrogation solution.

We offer our subrogation services to insurance, reinsurance and large companies with self-insured retentions. In today's challenging business environment, we are constantly pressed to do more with less. With incoming losses increasing and managing the current workloads, it may be time to consider outsourcing. We understand that recovery can mean the difference between profit and loss for a company. Our internal subrogation application gives us the ability to provide automatic diary, tasks based on complexity and statute of limitation dates by state.

At Pilgrim Insurance, we have a talented pool of associates that have extensive insurance knowledge with a collections mentality and skills to pursue your subrogation claims opportunities to the fullest extent.

How We Can Help

- ▶ We work hard to pursue valid subrogation claims and do it quickly. We know that this is important to our clients to collect the money you are owed in a timely manner.
- ▶ We process all reimbursements as quickly as possible.
- ▶ We will keep you informed throughout the process.
- ▶ We invest in our employee's success by providing a positive and rewarding work environment, training and development opportunities and certification programs.
- ▶ Results are evaluated on a weekly basis through Quality Control measures and productivity assessments.
- ▶ As part of the process we can provide data base searches, asset checks and skip traces to ensure we identify the responsible party.
- ▶ We will manage and monitor expenses.
- ▶ Litigation Guidelines are in place in addition to a legal bill review application.

Closed Claims Opportunity

At no cost to the client, Pilgrim's experienced audit staff and subrogation specialists can go to your offices and work collaboratively with your staff to review their closed claim files and identify cases that have recovery potential. If we identify such claims we will investigate and pursue them at our expense, charging a fee only if and when we recover money for the claim involving property damage, personal injury protection, third party carrier liability, product liability, property and overpayments.
